

# Traditional Chic

Traditional interior design reflects classic European decor. Architectural details are key (cherish them), along with formal, elegant and timeless furniture. Antiques are often integrated within the mix and if not originals certainly new pieces mimicking design attributes from the 18/19th century. Your space is a place of order, consistency, and often symmetry but is warm and homely. Artwork is essential and best varied from large and oversized verse delicate and small framed works in vignettes.

## TOP TIP

Look for strong silhouettes within your furniture; claw feet on baths, elaborate wing backs on chairs, rolled arms, details that are extreme and create strong lines.

## TRAITS

Floral, damask, Silk, Rich toned timbers, elaborate mouldings, bevelled wood panelling, arches, columns, bespoke cabinetry, bird and nature motifs, embroidery, fresh flowers.

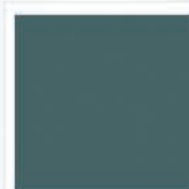

## BRANDS THAT FIT

Christophe living, Wallrocks, Colby furniture, Uttermost, CoCo Republic, Zoffany.
